WOMAN'S RIGHTS
In a recently published medical work, the author asserts that pine-tenths of the women of America are subject to aterine and kindred diseases and in consequence, maternity comes to them a dreaded bur den Howvery small is the proportion of indies who reach middle age wearing
the bright glow of health which was
their maldenly attraction and of which
they have been robbed by functional disorders and nervous weakness! We take orders and nervous wenkness! We take pleasure in racommending to all thus affilicted the use of Dr. Plerce's Favorite Prescription, a tried remedy, sate and sure in all cases. Its discoverer merits the gratitude of the sex for the bleasing he has conferred upon them. For nureing mothers and all debilitated "rundown? women, it is the most restain restorative. To thog about to become mothers it is a priceless boon. It lessens the pains and perild of child-birth, shortons labor, promotes the secretion of an abundance of nourishment for the child and abortons the period of confinement.

I seems to be a party business for the ethicilis of Egreat government to its to mak agains in the hope of deceying the pea ple in regard to the actual condition of the National fluances - Morcover, it is game that must fad in the and

mal sum, and on the closing day of the month they are kept down to a mire tri fle During the cloang ten days of February the expenditures were held down so that they averaged only \$171821 a day, and on the last day of the month they amounted to only \$21,089 Oo March i, however, they promptly jumped to \$1,311,316, and during the first ton days of March they averaged \$1 245,231 a day During the closing ten days of March the expenditures were again held down to a daily average of \$651,211, and on the last day of the mouth they were reported at \$40,700, thus making the March deficiency apparently only about \$250,000 On the first day of April, however, the expenditures rose again to \$1,736,340, and during the first thirteen days of the month they have averaged

It is a fact that the new revenue law bas now produced a deficiency of over \$50,000,000. The law went into effect on August 28, 1594, and at once began its deadly work of producing a deficit. It has kept this up mouth after month, until April 11 it passed the \$50,000,000 line. The deficiency from August 28 to the close of business to day amounted to 851,047,367, or an average of over \$250,-000 for each business day during that

How Buyers Are Cheated. We have time and again drawn the attention of the American people to the fact that the worst goods now being sold in our markets are cheap foreign goods. They have been shipped here by foreign manufacturers in order to compel the makers of American goods to sell their superior products on the same basis of prices as the cheap foreign imitations. knowing that, in order to do this and in order to retain possession of our home market, the American manufacturers

### must sell at a loss. A striking object lesson has been given in Boston which is described by the Commercial Indictin, March 21, as follows

hese goods be sold under their true

numes. Ask for American goods and pay the American price. Do not let the salesman pulm of upon you eforeign shoddy, or cheet you out of an addition

I hard is the highest water here since the
ong iteshed of 1869. Both railroads are
practically blocked. For the first time
since the Boston and Malie was built
trains had to be cancelled. There are
bad washouts on the Maline Central at
broundeld and Glein Statton and a heavy
land silice over the track at Zepland. No
trains through to-day. Integrales are
under water. I. C. Eastman's sugar

Al. G. Fleid's Minstrels.
The barnt cork artists in the persons of Al. G. Field's Minstrels held sway at the Opera House last night and well succreded in giving a large audience ar evening full of fun, melody and interest, The company had previously established itself in the favor of the Enuger theatregoing public and last evening's perform-ance added to its laurels.

Part first has numerous fresh jokes, with some old ones, well rendered songs by Messrs. Diamond, Gibson, Walting, Donnellev, Howard, Hall, Field and Wilson and the sextette, song and dance by Messrs. Horan, Casey and Quigly and a laughable finale by Messrs. Donnelly, Gibson and Quigly. The stage setting and costumes were handsome.

In the olio were a fine musical act by the Alvarez family, excellent bacjo play ing and comic songs by E. M. Hall, a Brewer boy, who has been heard here be-tore and who was received with much enthusiasm; skilful equilibrism by C. D. Melville, amusing monologue work by Mesers. Field and Doonelly, and bur lesque acrobatic work by Messrs. Marnet and Lorraine.

"Aladdin" is much more prefention than the usual afterpiece and presented the house a week by the grip, resumed realistic scenery in several sets, handsome costumes, set off by the calcium light and some melodious singing. The pupil of Mr. B. C. Adams, taking lessons entire performance was well received by the audicace.
